**01 - Basilica Side Isle of Cistercian Monastery Eberbach Germany.jpg**

**02 - Eiffel's Tower.jpg**

*Looks like you took some time -- to get the right angle -- nice*

**03 - Hohkoenigsburg Elsass France.jpg**

*Perfect time of day & the right spot -- keeps your eye in the frame = all the way to the Valley*

**04 - Horn Band at Farmers Market St. Wendel Germany.jpg**

*Good tight shot -- brings the band to a live feel*

**05 - Parisian Bride.jpg**

*Right time -- right place -- good candid*

**06 - Sagrada Familia.jpg**

*Good use of the verticals here -- maybe a little more cropping from the sides....*

**07 - Late Fall Morning-New Zealand -South Island.jpg**

*Nicely seen -- perfect clouds to accent the mountains -- not sure I like the "process" applied ...*

**08 - New Zealand - 12 Pounds of New Virgin Wool - Coming Up**

**09 - New Zealand-South Island - Late Fall.jpg**

*Another good framing -- boat in the right spot to. Just don't know the process on the overall image .. but I 'm very traditional :-)*
